

# OSCE Checklist: Colour Vision Assessment

Introduction		
1	Wash your hands and don PPE if appropriate	
2	Introduce yourself to the patient including your name and role	
3	Confirm the patient's name and date of birth	
4	Briefly explain what the examination will involve using patient-friendly language	
5	Gain consent to proceed with the examination	
6	Position the patient sitting on a chair	
7	Ask if the patient has any pain before proceeding	
8	Gather appropriate equipment	
Colour vision assessment		
9	Ask the patient to cover one of their eyes	
10	Ask the patient to read the number on the test plate	
11	Ask the patient to read the numbers on the Ishihara plates and stop at the plate that reads "73" (the last plate with a number)	
12	Document the findings	
13	Repeat the assessment on the other eye	
To complete the examination...		
14	Explain to the patient that the examination is now finished	
15	Thank the patient for their time	
16	Dispose of PPE appropriately and wash your hands	
17	Summarise your findings	
18	Suggest further assessments and investigations
